Practise these first

1. Unplanned long pause at 37.8–40.7 s (Pausing, about 1.6 pts)
Close the gap at “States ... was”: about 0.06 s is enough here (you paused 2.86 s). Mark the next phrase in your script so the pause is a choice, not a search.

Mr. Vice President, Mr. Speaker, Members of the Senate, and of the House of Representatives:
Yesterday, December seventh, nineteen forty one, a date which will live in infamy, the United States of America was suddenly and deliberately attacked by naval and air forces of the Empire of Japan. The United States was at peace with that Nation and, at the solicitation of Japan, was still in conversation with its Government and its Emperor looking toward the maintenance of peace in the Pacific.

Every flaw (1)

37.81–40.66 s · Unplanned long pause · Pausing

“States ... was”

Why: Silence of 2.86 s vs 0.06 s in the baseline (+2.80 s, z=+23.3) between "States" and "was". A pause this long reads as a lost line, not emphasis.
Do: Close the gap at “States ... was”: about 0.06 s is enough here (you paused 2.86 s). Mark the next phrase in your script so the pause is a choice, not a search.

Scores are deterministic: the same audio and transcript give the same report. Method: contrast/METHOD.md (AI Dataset Maker, Track C).
